

BOOMER'S STORY

Boomer Business is proudly operated by the Manukau Beautification Charitable Trust (MBCT) since the grand opening on 12th February 2015. Boomer Business is managed by Anita Curlett and is the only 'shed' concept in South Auckland open to women.

MBCT CEO Graeme Bakker, says the facility was built when the Trust realised the demand from retirees for the space. "Often people's circumstances change when they retire – they have more time on their hands, or they move house and don't have the space and tools they once had – but they still have skills and experience they wish to share. This space allows communities to come together to work on whatever projects they wish."
